

## **Astor Enerji A.Ş. Competition Policy**

Astor Enerji is committed to supporting a fair and free competitive environment by conducting all its activities in compliance with ethical and legal regulations. In this regard, the company adheres to the following principles:

- Strictly upholds the principles of fair competition in all business processes and refrains from engaging in any activities that may hinder or distort competition.
- Operates with integrity and transparency, placing ethical principles at the core of its business practices.
- Maintains an honest and transparent approach that aligns with market conditions to prevent unfair competition, avoiding any activities that contradict these principles.
- Provides regular training and information to employees to raise awareness of competition law and ethical business practices.
- Fully complies with all national and international regulations related to the protection of competition and ensures strict adherence to these rules.
- While creating value for its customers and business partners, Astor Enerji respects market dynamics and the rights of competitors.

Astor Enerji believes in the importance of fair competition for sustainable growth and successful business relationships and integrates these principles into all its business processes.
