

ASTOR ENERJİ A.Ş. SUPPLY CHAIN POLICY

Astor Enerji is committed to establishing and managing a reliable supply chain based on sustainability, quality, and ethical values. In this regard, the company:

- Adopts a business approach based on honesty, transparency, and mutual trust with all suppliers, ensuring full compliance with ethical standards and legal regulations in all business relationships.
- Prioritizes environmental and social responsibility principles in its supply chain processes, promoting the use of environmentally friendly, energy-efficient, and sustainable products and services.
- Ensures its suppliers' quality management systems and product/service standards comply with internationally recognized norms.
- Maintains a fair and impartial approach in supplier selection, upholds the principle of equal opportunity, and fosters a competitive business environment.
- Regularly evaluates supply chain performance, identifies improvement opportunities, and supports suppliers in achieving better standards.
- Requires suppliers to respect human rights, prohibit child labor, and provide fair and ethical working conditions for their employees.

Prioritizes environmentally friendly practices throughout the supply chain, from raw material procurement to end-user delivery. This includes green logistics, reverse logistics (after-sales services), and the adoption of renewable energy sources such as solar energy.

Astor Enerji is dedicated to integrating sustainability, quality, and ethical values into its supply chain processes, striving to build a long-term, reliable, and value-driven business model with its partners.
